Business Intelligence — Civiq Solutions

CIVIQ SOLUTIONS

HELLO!

We are Civiq Solutions. Our parent company, Qora Studios builds the brand, the visuals, the web presence, the creative that gets attention. We build what happens after: the automation engines that turn that attention into revenue. Custom sales automation, lead-capture pipelines and data-driven marketing systems engineered for zero-leakage retention. Every lead in. Every lead tracked. Every lead closed.

SOCIAL MEDIA

01

Safe-Keep

Safe-Keep's (brand built by Qora Studios), puts bold product visuals and advocacy-driven messaging in front of South African women at the exact moment they're searching for protection. Civiq engineered the layer behind it: custom TikTok and social lead-capture automations that intercept every inbound enquiry the instant it lands and route it straight into an automated sales pipeline. In a category where a five-minute delay costs a sale, Safe-Keep now converts on impulse, zero dropped leads, zero missed touchpoints..

Sector : Personal Safety

Design Story

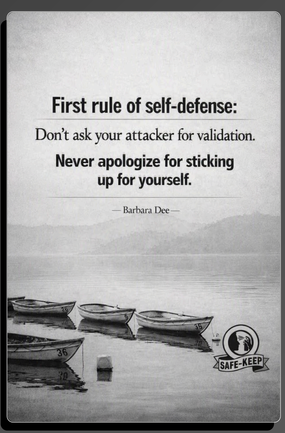

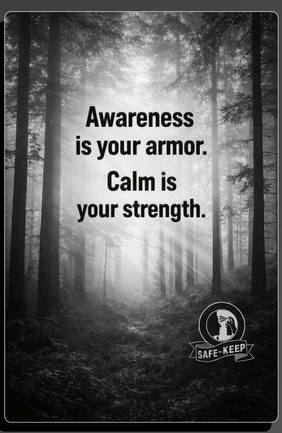

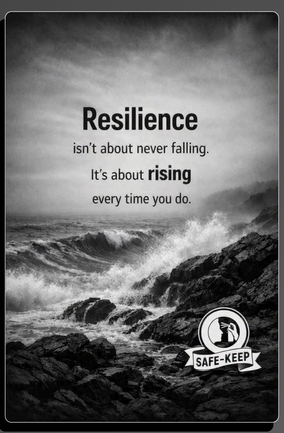

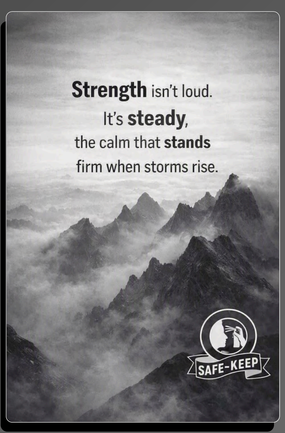

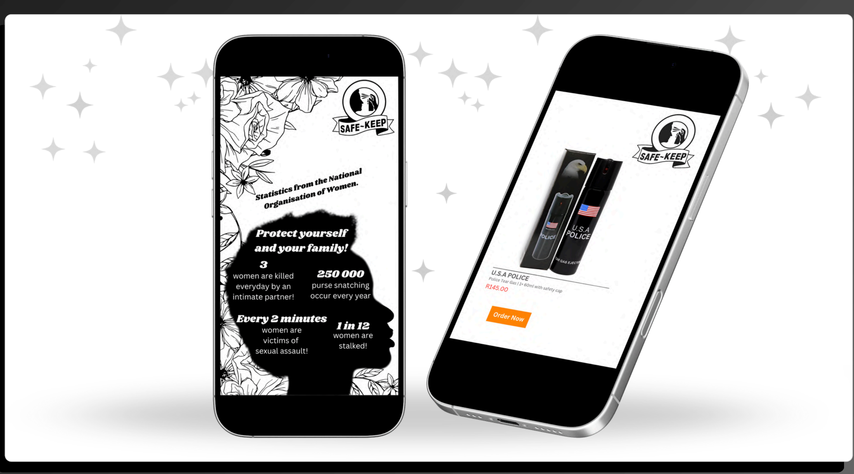

Gina Mthembu Incorporated

Gina Mthembu Incorporated's digital presence draws in high-intent enquiries from people in urgent legal need. Civiq built the intake engine that catches them: automated client intake, missed-call text-back and automated document processing for contracts and case files. High-intent legal leads don't wait, now they don't have to. Every enquiry is acknowledged and progressed in real time, securing retention on cases that would otherwise go to whichever firm responds first.

Design Story

Komani Jazz and Legacy Promoters

Komani Jazz's heritage driven brand reconnects Queenstown's community with its jazz legacy. Civiq built the commercial backbone: a fully automated event booking and ticket sales pipeline synced to Google Calendar with instant ticket and invoice delivery on purchase. The result is a checkout process with no friction and no drop-off, every ticket sale completes, every booking confirms itself and the operational engine runs the events business while the team focuses on the culture.

Design Story

ASMALLWORLD

ASMALLWORLD's premium creative sets the standard for elite travel marketing across Instagram, LinkedIn and newsletter. Civiq built the pipeline that protects that standard: multi-channel lead validation, automated high-end nurture sequences and premium CRM routing purpose-built for luxury booking cycles. High-value travelers get treated like high-value travelers from first click to final booking, no lead is ever left to go cold.

BRAND VISUAL AND IDENTITY

Abaveleli Funeral Directors

Abaveleli Funeral Director's identity reflects the sensitivity the brand is built on. Civiq built the operational layer to match: a 24/7 automated conversational engine and intake routing system that ensures every family request is met immediately, with no manual capture delay and no operational gap. In moments that can't wait, Abaveleli never leaves a family waiting.

Medicure Clinic

Medicure Clinic's clean, trustworthy visual identity communicates care before a patient even walks in. Civiq built the engine that keeps that care on schedule: automated appointment routing, Google Calendar synchronization and automated follow-up sequences that cut no-shows and handle medical enquiries securely and immediately. Patients get consistency. Medicure gets a clinic that runs itself between visits.

Vukani Community Radio

Vukani's bold, high-contrast identity gives the station a presence as loud as its voice. Civiq built the revenue engine behind it: automated inbound advertiser lead sorting, sponsorship pipeline routing and instant automated media kit delivery. Every advertiser enquiry and sponsorship lead is captured and progressed the moment it arrives, securing ad revenue and community partnerships without a single lead falling through the cracks.
